

**For Researchers**

Our extensive portfolio of biological tools and services is designed to help you overcome your research and development challenges.

**For Diagnostic Manufacturers**

We offer contract development and manufacturing services as well as custom raw materials to accelerate your assay development journey.

**For Biopharma Customers**

We offer a range of discovery, development, and manufacturing services for our customers in the biopharma industry.

**ANTIBODIES/PROTEINS**

- All Antibodies
- Primary Antibodies
- Secondary Antibodies
- Monoclonal Antibodies
- Polyclonal Antibodies
- Epitope Tag Antibodies
- Antigen Proteins
- New Antibodies

**IMMUNOASSAYS**

- ELISA
- PathPlex® IHC
- Lateral Flow Assays

**DIAGNOSTIC RAW MATERIALS**

- Lateral Flow Antibodies & Gold Conjugates
- Bulk Nanoparticles & Conjugation Kits
- GMP-Ready Bulk Enzymes
- Bulk Antisera

**NANOPARTICLES**

- Gold
- Silver
- Silica
- Platinum
- Conjugation Kits

**MOLECULAR REAGENTS**

- PCR
- qPCR
- Reverse Transcription
- Isothermal Amplification
- CRISPR
- Nucleic Acid Extraction
- Sanger Sequencing
- NGS Enzymes
- NGS Precision Controls

**Our Brands**

Fortis Life Sciences is assembling a unique combination of life sciences companies with a collective mission to build world-class products with the best customer experience in the industry.
