

# ANASPEC Peptides

## 25 YEARS OF PEPTIDE ENGINEERING

AnaSpec, a subsidiary of Eurogentec, has a long-standing peptide expertise during which it has consistently provided reliable products and services for the global Life Science research community, and striven to meet the most stringent expectations for quality, delivery timelines, and technical support

## CUSTOM & CATALOG PEPTIDE INNOVATION

The development of diverse peptide synthesis platforms allows for the production of complex peptides. AnaSpec catalog peptides are specially categorized for quick recognition of peptides that fit your research needs

### FOR LIFE SCIENCE RESEARCH

- > Custom peptides
- > Quantified peptides
- > Heavy isotope labeled peptides
- > FRET peptides
- > Cyclic peptides
- > Peptide-oligo conjugates
- > Catalog peptides
- > Recombinant proteins
- > Labeling kits and reagents
- > Assay kits

### PEPTIDE GROUPS BY RESEARCH TOPIC

Neuroscience

Cell permeable  
& Cell penetrating

Cardiovascular

Diabetes

Host defense

Epigenetics

Cancer and  
apoptosis

Peptide hormones

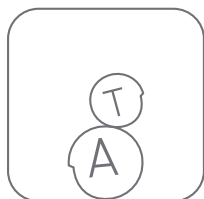

Cell adhesion  
& ECM

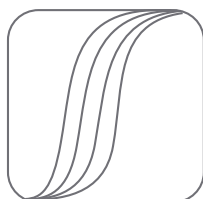

Signaling

Peptide analysis

Oligos

PCR/qPCR

Genes/DNA

Antibodies
