

Product Type

Antibodies

- Primary Antibody
- Secondary Antibody
- Tag Antibody
- Loading Control Antibody
- Selected Primary Antibody
- Secondary Antibody for mIF
- IPKine™ Secondary Antibody

Proteins

- Clusters of Differentiation
- Cytokines
- Cytokines (Animal-Free)
- Enzymes

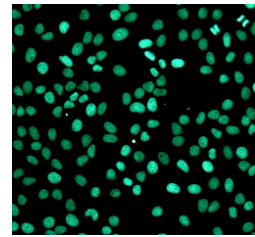

Kits

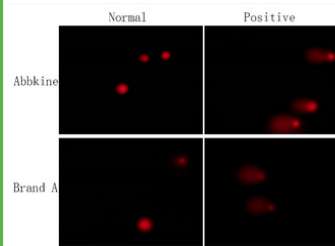

- Purification Kit
- Sampling Kit
- Labeling Kits
- ELISA Assay Kit
- Apoptosis Detection Kit
- Biochemical Assay Kit
- Cell Staining/Tracing Kit
- Cell Senescence Detection kit

Others

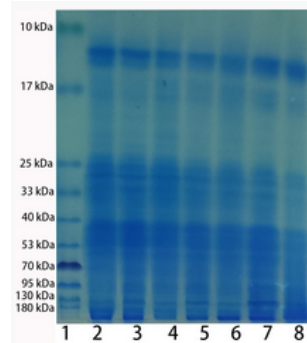

- Blocking Serum
- Colorcode Prestained Protein Marker
- Coomassie blue G
- ECL
- Fluorescent Dyes
- Protease Inhibitor
- Purification Resin

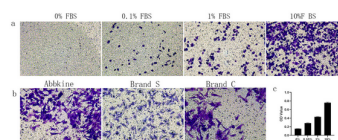

One-step TUNEL Apoptosis Assay Kit (Green Fluorescence)

Comet Assay Kit (3-Well Slides)

ExKine™ Pro Total Protein Extraction Kit for Animal Cultured Cells/Tissues

Cell Migration Assay Kit (24 well, 8µM)

Super-Rapid Protein Quantification Kit (BCA Assay)

5 min-Super-Rapid Protein Quantification Kit (BCA Assay), Room temperature color development, fast and time-saving. Such an excellent kit! You deserve it!

Proteomics Products

Proteomics is a science that takes proteome as the research object and studies the protein composition of cells, tissues or organisms and its changing rules.

Cytology Products

Cytology is a branch of biology that studies the morphology, structure, and function of cells and is related to cell growth, differentiation, and evolution.
