

SMALL MOLECULES

ELISA KITS

TR-FRET KITS

ANTIBODIES

PROTEINS

Product Groups - Small Molecules

Focus areas:

- Small Biologically Active Molecules
- Unique Natural Products
- Rare Antibiotics
- Screening Compounds
- Microbiota
- Detection

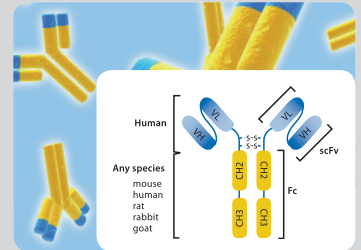

- Dyes
- Labels
- Probes

Product Groups - Antibodies / Recombinant Antibodies

ANTIBODIES

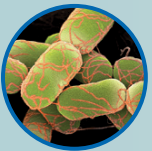

- Raised against purified native proteins
- Extensively tested/validated
- Cited in scientific publications
- Competent for different applications
- ATTO, Biotin and FITC-labeled
- Used in ELISA Kits

Product Groups - Proteins

PROTEINS

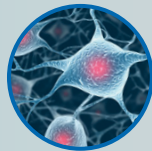

- Low endotoxin levels
- Produced in E.coli, HEK 293 & CHO cells
- Bulk quantities available
- MultiPacks available

INFLAMMASOMES &
INNATE IMMUNITY

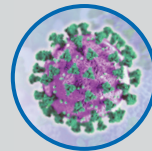

B & T CELLS
IMMUNE REGULATION

NEUROINFLAMMATION

OBESITY

SARS-COV-2
