

We offer a range of high-quality interferon and interleukin immunoassay kits, cytokines and interferons, and monoclonal and polyclonal antibodies for life science researchers.

## Antibodies

Monoclonal and Polyclonal Antibodies validated for use in biological assays.

- Monoclonal Antibodies (MAbs)
- Polyclonal Antibodies (PABs)

## Assay Kits

High-performance IFN & Cytokine ELISA kits are characterized to provide you with reliability and accuracy.

- Cell-Based Assays
- Interferon (IFN) ELISAs
- Interleukin (IL) ELISAs

## Proteins

Interferons, Cytokines & Growth Factors for life science research.

- Cytokines and Growth Factors
- Interferon Decoy Receptor
- Interferons
