

Get higher throughput with less hands-on time by using the Load N' Go ZymoBIOMICS DNA MagBead Kit. Using pre-filled 96-well reagent plates, this kit is a turnkey solution for scalable nucleic acid extraction from microbiome samples.

Reach Automation Bliss:

- ✓ Save 75% of Hands-on Time
- ✓ Standard-validated Workflow
- ✓ Low Bioburden Reagents
- ✓ Extract DNA from Any Sample

Save time and focus on discovery! Learn more: <https://lnkd.in/dVtc3DgF>

Pre-Filled Microbiome DNA Extraction for Automation

- ✓ Pre-filled 96-well reagent plate technology offers multi-platform compatibility.
- ✓ Isolate ultra-pure DNA ready for any downstream application.
- ✓ Free scripts available for most major platforms.
